

Save money with CCC by reducing your carbon footprint!

Confronting Climate Change (CCC) is a carbon footprinting initiative, developed to support fruit and wine organizations through identifying and responding to the risks and opportunities associated with carbon emissions. The CCC online carbon calculator is constantly evolving to keep up with the ever-changing carbon context.

We are committed to keeping our costs as low as possible, without compromising on the quality of our service.

Measure & understand carbon emissions in a **credible and supported** way.

Not just a carbon footprint!
Receive detailed results to inform future plans and strategies.

Consultant in your pocket at a **fraction of the cost.**

Gain a Competitive Edge through Sustainability
Transparently share your sustainability efforts and journey with the rest of your supply chain on Carbon Heroes. This will effectively communicate your commitment to environmental responsibility.

Spanning commodities and the globe

- Citrus
- Wine Grapes
- Table Grapes
- Pome fruit
- Stone fruit
- Avocados
- Macadamias
- Bananas
- Blueberries
- Olives
- Pomegranates
- And more...

You can't **manage what you don't measure!**
The CCC license fee pales in comparison to the long-term **cost savings** achieved through carbon reductions.

Calculating your carbon footprint with CCC and cutting down your **carbon emissions** is not only sustainable for the environment, but **financially beneficial.**
